

The Rhode Island Renewable Energy Fund

RHODE ISLAND RENEWABLE ENERGY FUND

ADDENDUM

**REQUEST FOR PROPOSAL FOR THE SUBMITTAL OF BIDS TO PROVIDE AND INSTALL
SOLAR ELECTRIC (PHOTOVOLTAIC) SYSTEMS AND DATA ACQUISITION SYSTEMS FOR
THE SOLAR ON SCHOOLS INITIATIVE**

April 26, 2006

System H: Ponaganset Middle School, ***New Construction***

Additional information has been developed by the engineers/architects for this site. The school will be providing the attachment points for a rack mounted array. The school will be providing two runs of conduit from the roof to the mechanical/electrical room where the Inverter and related components, as well as the DAEIS is to be located. One conduit run will be for the DC power conductors, and the other will be for the DAEIS communication wires.

Please see the document entitled: Ponaganset Solar Panel- Sub Framing
(Ponaganset_Solar Panel_Sub_Framing.pdf) for schematics.
